## **Pro-Life Mississippi responded to U.S. Supreme Court granting review in *Dobbs v. Jackson Women's Health Organization*.**

“We are encouraged that the U.S. Supreme Court will hear the Mississippi case involving the limit on the use of abortion to the first 15 weeks of pregnancy,” said Laura Knight, President of Pro-Life Mississippi. “Limiting abortions to the first trimester would increase protections for mothers and their preborn children from dangerous and painful late-term abortion procedures. We support Attorney General Lynn Fitch as she defends the law for all of our children. We look forward to a future when our state is free to pass laws that protect both mothers and their preborn children.”
