### **Statement Regarding Dobbs v. Jackson Supreme Court Decision**

Pro-Life Mississippi celebrates a victory for Life and for Justice today after the U.S. Supreme Court released the final decision on the Dobbs vs. Jackson Women’s Health Organization case. We are confident in our state leaders to quickly move to protect Mississippians from the brutality of the abortion industry within our own state.

“Pro-Life Mississippi will continue to speak for the preborn and vulnerable mothers as we educate on life issues from fertilization to natural death,” said Laura Knight, President of Pro-Life Mississippi. “We now turn our focus to Mississippi mothers and families. Our community outreach efforts will continue to inspire our neighbors to build a culture of life by assisting women in unplanned pregnancies, adopting or fostering children, and supporting local charities that also promote life.”

“Overturning the Roe and Casey decisions now return the abortion issue back to the state legislatures where we expect a quick response to uphold our Mississippi laws against abortion,” continues Knight. “We expect the abortion industry to make every effort to circumvent our laws but Pro-Life Mississippi will expose these attempts and continue to stand for life in all stages even in this Post-Roe era.”
